

Biographical Sketch

Goran Angelovski

ICPBR, Shanghai, China

Dr. ANGELOVSKI Goran studied chemistry and obtained his diploma degree at the University of Belgrade (Serbia) in 2000. He continued his studies at the University of Dortmund (Germany) as a fellow of the German Academic Exchange Service (DAAD), where he obtained the PhD degree in organic chemistry in 2004. In 2005, he moved to the Max Planck Institute for Biological Cybernetics in Tuebingen and initially worked as the postdoctoral researcher in the Department for Physiology of Cognitive Processes, department director Prof. Nikos K. Logothetis. He became the project leader in 2007 and was promoted into the independent group leader in 2014 at the same institute. Meanwhile, he performed habilitation (venia legendi) at the University of Tuebingen in 2012 and served as the lecturer at the Faculty of Science and the Faculty of Medicine. Since 2020, Dr. Angelovski is the Senior Investigator at the International Center for Primate Brain Research (ICPBR), Center for Excellence in Brain Science and Intelligence Technology (CEBSIT) of the Chinese Academy of Sciences (CAS) in Shanghai, China.
